

Robert's & Sharon's Story of Hope

My wife and I had a place and everything was going well. We were doing everything on our own without God in our lives. We went to Virginia to bury my birth-mom and our neighbor thought we had moved. When we got back to our home, all of our stuff was gone. We didn't know what to do. My daughter offered for us to live with her, but we didn't want to put that burden on her and her family. My wife was crying and said, "just call the mission!" We went to City Union Mission Family Shelter. I went to the men's shelter and my wife went to the women and children's shelter. God blessed us to talk with someone who connected us with the Straight and Narrow transitional houses. We were embraced as soon as we moved into the houses. We have true brothers and sisters in Christ here that surround and encourage us. We are now doing this walk with God and are learning how to cope well and embrace God during the problems of life. We want God to control our lives now and are so grateful for all that God has done. We thank God for Jesus and for leading us here!
